Gems4less Ltd, Suite LG15, The Record Hall, 16-16a Baldwin Gardens, London, EC1N 7RJ, UK

To find out more or check the validity of this certificate visit <https://www.assayassured.co.uk>

## Independent Verification

All precious metal jewellery offered by Assay Assured jewellery retailers carries the legally-required independent hallmark verifying the precious metal content (unless the item is exempt by weight). The retailer agrees to allow sampling and testing on request by Assay Assured to ensure that jewellery exempt by weight from hallmarking is also of the claimed standard - a protection over and above legal requirements.

## Accurate Product Descriptions

All products will be accurately described, stating the precious metal content.

## Independent Arbitration

If you have a query about the precious metal content of your purchase that you are unable to resolve with the retailer, Assay Assured will independently inspect/test the article and provide a report on their findings.

## Only Genuine Branded Products

Assay Assured Jewellery Retailers agree not to carry counterfeit branded jewellery on their website.
